

Superreel® - Industrial Reel

Air hose reel

Superreel industrial Air Hose Reel is great for do-it-yourself projects, professional and industrial applications.

The professional-grade, all-steel construction air hose reel features a corrosion resistant powder coat finish for added life and increased durability. The hose travel on and off the reel is smoothly guided by a 4-roller guide arm that adjusts to different positions. Select the needed length of hose from the reel while a continuous ratchet gear locks it into place and gets rid of backward tension while you work.

Just tug on the hose to unlock, while the automatic rewind feature puts the hose back onto the reel. Conveniently, the reel can be mounted to the ceiling, wall, or floor.

OUR CAPABILITIES

- Ultra-high pressure and high current, the highest pressure of gas and liquid up to 80-100MPA. Taking advantage of the National New Energy Policy, the maximum current of the DC charging reel can reach to 500A.
- Super-long. Spring-driven reels can handle hoses or cables up to 50 meters. Motor-driven reels' capacity up to 3000 meters.
- Engineering reciprocation. One of the few domestic manufacturers that can produce reciprocating hose reels and multi-line hydraulic reels.
- Smart reels with intelligent functions. Limit, feedback, measurement, remote control, APP control, adaptive control and other functions are used in our reels.

Superreel® - Industrial Reel

- Hose and cable combined reels. One reel can manage/ transmit media including acousto-optic signals, various gas-liquid media, etc, at the same time.
